

SALVESEN GRAHAM CARVER CHAIR

SGCVCHR
From $3,600.00

A handsome and elegant piece, Mary and Nicole wanted to create a carver chair that would be equally at home at the top of a formal dining table or study, as it would in a more relaxed space such as a breakfast nook.

We finished our Salvesen Graham Carver Chair with classic design features that will always remain relevant, such as carved rings to the legs, solid brass castors, flowing show-wood arms, a studded cut out handle to the back and piped edges.

Each chair is handmade in the rural English countryside using both traditional and modern upholstery methods and materials. We chose a solid beech frame for strength and durability, and then use natural and recycled materials for wadding and stuffing along with coil springs for an extremely comfortable seat. Perfect for long dinners whiling away the hours with friends and family, or the ideal study chair that is kind to your posture.

Salvesen Graham
