

WOVEN RIBBON - HEATHER

SGWFABRIHE
$336.00

Our woven ribbon range is composed of ten sophisticated tones from Heather and Coffee to more neutral Barley & Cream and features a subtle tonal pattern in a vertical serpentine stripe, emulating hanging ribbons.

The small-scale repeat makes the fabric a natural choice to complement a room scheme where bolder colours and large-scale patterns are in use. The composition of cotton, viscose & flax ensures a natural handle making them incredible usable as both upholstery & drapery throughout the home.

All the fabrics in our wovens collection are made in the UK, to the OEKO-TEX STeP standard which certifies the manufacturing process for environmentally friendly and socially responsible production facilities.
